

**ISO 9001: 2015 CERTIFIED**

## **PUBLIC NOTICE**

### **DRONE OPERATIONS DURING COVID-19 RESTRICTIONS**

If you are a recreational drone pilot and wish to operate a drone, you are advised to operate this within your own property during the COVID-19 operational restrictions.

You cannot fly your drone over public spaces such as parks or the beach, nor during curfew hours and within the lockdown zone(s) as designated by the Government.

COVID-19 restrictions also apply to those organisations holding Commercial Authorisations for RPAS unless operating in direct support of an organisation providing an essential service, and only when the activity directly contributes to the provision of that essential service, or is necessary for that essential service to continue.

**If in doubt, STAY GROUNDED – it's the safest thing to do.**
