

IMPORTANT

Section 78 (2) of the Air Navigation Regulations 1981 requires that a PERMISSION from CAAF be obtained prior to the operation of any aerial device -

- a) within 3 kilometers of an aerodrome reference point of a domestic aerodrome and within 5 kilometers of an aerodrome reference point of an international aerodrome; and
b) more than 200 feet (approximately 61 meters) above the earth's surface.

Aerial Device means a balloon, glider, hang glider, powered or towed parachute, ultralight or microlight aircraft, tethered or towed kite, model aircraft, rocket or firework display or any other similar device.

CAAF may impose conditions on the operation of the aerial device.

Operator's details (person/organisation conducting the operation)

Table with fields: Full Name, Address of service, Telephone Number, Mobile Number, Email Address, Organisation, Post held, Signature, Date

Operator (person operating the aerial device)

key contact for coordination

Table with fields: Name, Contact Number during operation

Details of operation

Table with fields: Date(s), Start Time, End Time, Location of operation, Latitude / Longitude position, Radius of operation, Maximum height of operation, Proximity to nearest aerodrome/HLS, Reason for the operation

Additional information (populate as applicable to operation being conducted)

PYROTECHNICS	
Height of launch point above ground level	
Burst height	
Burst radius	
Maximum height above ground level of the firework in display	
Maximum weight of the rocket /any projectile launched	

SKY LANTERNS/BALLOONS	
Maximum size (Diameter) of the Sky Lanterns	
Number to be released	

UNMANNED AERIAL VEHICLES	
Type	
CAAF Flight Operations approval issued?
