AIRCRAFT SYSTEMS, INSTALLATION AND EQUIPMENT

This appendix is to be completed when applying for the issue of any Certificate of Airworthiness or Permit to Fly. All items to be completed as appropriate and in cases where they are not relevant, the words 'Not Applicable' should be entered.

For Subsequent Issue complete 3,4,5 & 4.6 only

SYSTEM, INSTALLATION OR EQUIPMENT	MANUFACTURER, TYPE, NUMBER INSTALLED
1 AIRFRAME SYSTEMS	
1.1 State if the aircraft is pressurised.	YES/NO*
1.2 Oxygen: : installed system : portable	
1.3 Portable fire extinguishers	
1.4 State if the aircraft is equipped for flight in icing conditions	YES/NO*
2 POWER PLANT	
2.1 State if engines are turbocharged	YES/NO*
2.2 Auxillary power-unit	
2.3 Fuel quantity indicating system (gal/lb/litres/kg)*	
3 AVIONIC SYSTEMS	
3.1 Automatic-pilot: Radio Coupled/Non-Radio Coupled* Auto-stabiliser	
3.2 Radio Installation	
HF Communication*	
VHF Communication*	
VHF Communication and Navigation*	GP1/2
VHF Communication and Navigation*	GP1/2
Marker*	
ADF*	
DME*	
ATC Transponder*	Encoder
Weather Radar*	
Radio Altimeter*	
Omega VLF*	
Area NAV/DME*	
TCAS/ACAS*	
Satellite Communication*	
Additional Equipment to be added.	

* delete as applicable

SYSTEM, INSTALLATION OR EQUIPMENT	MANUFACTURER, TYPE, NUMBER INSTALLED
<p>4 GENERAL</p> <p>4.1 Installation of safety harness or one diagonal restraint -state which at:</p> <p>Pilot(s) seat position(s)</p> <p>Passenger(s) seat position(s)</p> <p>4.2 Are there provisions for carrying external loads?</p> <p>4.3 Are there provisions for glider or banner towing?</p> <p>4.4 Are there systems installed for agricultural purposes?</p> <p>4.5 Differences in production build standard from standard approved by the CAAF. (Statement from manufacturer to be supplied). Please confirm if no changes incorporated.</p> <p>4.6 Give details of equipment, systems which have been introduced by modification since original manufacture and include STC reference if applicable.</p>	
<p>NOTES:</p> <ol style="list-style-type: none"> 1) The Applicant shall send to the CAAF a Certificate of Airworthiness for Export issued by any state within 60 days of the date of application. Where the Airworthiness Authority of the exporting country is unable to issue a Certificate of Airworthiness for Export the CAAF may consider acceptance of alternative a valid domestic Certificate of Airworthiness issued by a contracting state to ICAO together with acceptable documents such as evidence as to the continued airworthiness of the aircraft, which has been confirmed by the appropriate Airworthiness Authority. 2) In the case of an aircraft of a type for which a Fiji C of A has not been previously granted, attention is drawn to the requirement to provide the CAAF with the number of copies of the Flight Manual or alternative documents as specified in Chapter A7-2 and B7-2 and with copies of Maintenance and Overhaul Manuals and Service Bulletins as specified in Chapter A3-2 and B3-2. 3) The applicant is warned that failure to provide the information required at Item 4.6 of the Appendix A to this form may result in delay in the completion of this Certification. The applicant is also advised that the CAAF may wish to investigate modifications or equipment even though they have been approved by other Airworthiness Authorities, and the applicant is advised to identify the method of approval by such Authorities (such as the issue of a Supplementary Type Certificate) as this can be of assistance in obtaining CAAF approval. The applicant should be aware that the CAAF may be required to fly the aircraft for test purposes. 4) The applicant should clearly understand that unless all the entries on the form are completed accurately, the CAAF will be unable to process the application. In this event the applicant will be notified accordingly and the application will be held until such time as all information is available.
